EDUCATION

IES Nervión: Higher National Diploma in Multiplatform Application Development Seville, Spain.

PROFESSIONAL SKILLS

Teamwork.

Problem Solving.

Interpersonal Skills.

Working Under Pressure.

PERSONAL SKILLS

Self-taught.

Proactive.

Independent.

Eloquent.

LANGUAGES

Spanish: Native.

English: Advanced.

German: Beginner.

CERTIFICATIONS

- JavaScript
- Angular
- React Fundamentals
- Django API
- Django Course
- Web Hacking Course
- PowerShell
- Bootstrap
- PHPUnit
- API Consumption Retrofit
- REST API with Laravel
- Flutter
- Jetpack Compose
- Laravel
- Laravel 9
- PHP

WORK EXPERIENCE

Ayesa: Spain · Hybrid Sep 2025 – Present

- Developed frontend components using JavaScript, HTML, and CSS within a large-scale B2B platform.
- Implemented new features and resolved functional tickets, maintaining code quality and deployment consistency.
- Managed version control with Azure Repos and performed deployments through Azure Pipelines.
- Collaborated in an agile environment using Jira for task tracking and sprint management.
- Worked on backend logic and database interactions (SQL). Developed frontend components in JavaScript, HTML, and CSS, applying component-based architecture similar to Angular/React.

Bluumi: Spain · On-site Mar 2025 – Jun 2025

- Participated in the development of ERP and eCommerce modules using JavaScript (Node.js), Laravel, Blade, AdminLTE, and Docker.
- Enhanced ERP modules by adding dynamic UI filters, advanced search functionality, and frontend refinements, improving user experience.
- Developed a fully functional eCommerce MVP synchronized with ERP, including client-side logic for user registration, order management, cart, and search filters, completed in only 3 weeks.
- Introduced automated testing (PHPUnit) with database integration, covering CRUD operations and middleware logic, increasing overall deployment reliability.

LANGUAGES AND TECHNOLOGIES

Experience using technologies such as **Laravel, Kotlin, Jetpack Compose, Angular, Firebase, MySQL, .NET, C#, Java, Python, Django, HTML, CSS, JavaScript, Unity, Git, GitLab, GitHub, MAUI, ASP.NET, React, TypeScript, Hibernate, Selenium WebDriver, JUnit (including parameterized tests)**, among many others, applied in the development of modern, scalable, and efficient web, mobile, and desktop solutions.
