EDUCATION

IES Nervión: Higher National Diploma in Multiplatform Application Development Seville, Spain.

PROFESSIONAL SKILLS

Teamwork.
Problem Solving.
Interpersonal Skills.
Working Under Pressure.

PERSONAL SKILLS

Self-taught.
Proactive.
Independent.
Eloquent.

LANGUAGES

Spanish: Native.
English: Advanced.
German: Beginner.

CERTIFICATIONS

- Django API
- Django Course
- Web Hacking Course
- React Fundamentals
- PowerShell
- Bootstrap
- PHPUnit
- API Consumption Retrofit
- REST API with Laravel
- Angular
- Flutter
- JavaScript
- Jetpack Compose
- Laravel
- Laravel 9
- PHP

WORK EXPERIENCE

Ayesa: Spain · Hybrid Sep 2025 – Present

- Development of Salesforce solutions using Apex and Lightning Web Components (LWC) within a large-scale B2B platform.
- Implemented new features and resolved functional tickets, maintaining code quality and deployment consistency.
- Managed version control with Azure Repos and performed deployments through Azure Pipelines.
- Collaborated in an agile environment using Jira for task tracking and sprint management.
- Worked on frontend components (JavaScript, HTML, CSS, LWC) and backend logic (Apex, Java, SQL), improving system performance and cache management.

Bluumi: Spain · On-site Mar 2025 – Jun 2025

- Participated in the development of ERP and eCommerce modules using Laravel, PHP, Blade, Node.js, AdminLTE, and Docker.
- Improved ERP modules for a retail system by adding dynamic filters, enhanced search functionality, and UI refinements.
- Developed a fully functional eCommerce MVP synchronized with ERP, including user registration, order management, cart, middleware, and search filters, completed in only 3 weeks.
- Introduced automated testing (PHPUnit) with external database connections, covering CRUD operations and middleware logic, increasing overall reliability of deployments.

LANGUAGES AND TECHNOLOGIES

Experience using technologies such as **Laravel, Kotlin, Jetpack Compose, Angular, Firebase, MySQL, .NET, C#, Java, Python, Django, HTML, CSS, JavaScript, Unity, Git, GitLab, GitHub, MAUI, ASP.NET, React, TypeScript, Hibernate, Selenium WebDriver, JUnit (including parameterized tests),** among many others, applied in the development of modern, scalable, and efficient web, mobile, and desktop solutions.
